HOMESCHOOL EVENTS

Spring 2010

Return to the Moon™ - Simulated Mission

The year is 2015. For the first time since 1972, a crew of astronauts is returning to the Moon. This time, they plan to stay. The mission is to establish a permanent base on the Moon to observe and explore, as well as test the feasibility of off-Earth settlements. Navigating their way into lunar orbit, students must construct and launch a probe, and analyze a variety of data gathered from the lunar surface to select a site for establishing the permanent Moon base.

THURSDAY, MARCH 4th

Voyage to Mars™ - Simulated Mission

In Earth years, it is 2076. A now routine Voyage to Mars has brought the latest human crew into Martian orbit. Control of an incoming flight has been transferred from Houston's Mission Control to Mars Control at Chryse Station. The crew arriving from Earth on the Mars Transport Vehicle has been specially trained to replace the existing crew of astronauts, which has manned Mars Control for the past two years.

TUESDAY, MARCH 16th

Time: 1:00 - 3:30 pm

Location: Challenger Learning Center (located on WKCTC campus)

Event Fee: \$12 per person, per event

Age Requirement: 9 years of age and up

- Limited Space Available.
- Event fee is due at time of registration.
- Registration is on a first come, first serve basis.
- Children cannot be dropped off.
- Responsible parent must remain in lobby or pay to participate.
